

# **APPENDIX D**

# *West San Jacinto Groundwater Management Plan Monthly Report to the Advisory Committee*

~ January 2008 ~

## 1. West San Jacinto Groundwater Management Plan Area Activities

- Field Activities

- During January, the annual water quality sampling effort was initiated.

Water Quality Sampling	Wells Sampled In January	Wells Sampled Year To Date
Wells Requiring Mobile Pump	8	8
Wells Not Requiring Mobile Pump	0	0
<b>Total</b>	<b>8</b>	<b>8</b>

- EMWD Groundwater Production

Potable Well Production	Production (AF) In January	Production (AF) Year To Date
Well 44 Sunnymead	68	68
Well 49 Fir	24	24
Well 55 Perris II	109	109
Well 56 Perry	126	126
Well 57 Follico	132	132
Well 59 Indian	149	149
<b>Total</b>	<b>608</b>	<b>608</b>

Desalter Well Production	Production (AF) In January	Production (AF) Year To Date
Well 75 Salt Creek	0	0
Well 76 McLaughlin	238	238
Well 77 Ethanac	0	0
Well 81 Antelope/Watson	137	137
Well 82 Mapes/Sherman	0	0
Well 83 Ellis/Sherman	114	114
Well 84 Ellis/Bradley	104	104
Well 85 Murrieta	0	0
Well 89 Ethanac II	0	0
<b>Total</b>	<b>593</b>	<b>593</b>

- Perris Basin Desalination Program

<b>Desalter Production</b>	<b>Production (AF) In January</b>	<b>Production (AF) Year To Date</b>
Menifee Desalter	194	194
Perris Desalter	155	155
<b>Total</b>	<b>349</b>	<b>349</b>

- Perris Water Filtration Plant

<b>Filtration Plant Production</b>	<b>Production (AF) In January</b>	<b>Production (AF) Year To Date</b>
Perris Water Filtration Plant	653	653

## 2. Hemet/San Jacinto Groundwater Management Activities

- Interim Water Supply Plan

- Due to the dry conditions and the level of demands in its service area, the Metropolitan Water District of Southern California (Metropolitan) curtailed Replenishment Service as of May 1, 2007. Therefore, no water was recharged at either the Conjunctive Use or Grant Avenue Ponds since then.
- In this collaborative effort between EMWD, LHMWD, and the Cities of Hemet and San Jacinto, 821-acre feet of SPW was recharged toward the 2007 goal of 6,000-acre feet.

## 3. Other Water-Related News

- Recycled Water Activities

- During December, recycled water storage facilities reached capacity and, as a result, it was necessary to discharge 3,554-acre feet of recycled water in January.

<b>Recycled Water Discharge</b>	<b>Discharge (AF) In January</b>	<b>Discharge (AF) Year To Date</b>
Temescal Creek at Wasson Canyon	3,554	3,554

# *West San Jacinto Groundwater Management Plan Monthly Report to the Advisory Committee*

~ February 2008 ~

## 1. West San Jacinto Groundwater Management Plan Area Activities

- Field Activities

- In February, the Spring 2008 water level measuring effort was initiated.

Spring Water Level Measuring	Spring Static Measurements
Wells Measured in February	48
<b>Total</b>	<b>48</b>

- During February, the annual water quality sampling effort continued.

Water Quality Sampling	Wells Sampled In February	Wells Sampled Year To Date
Wells Requiring Mobile Pump	3	11
Wells Not Requiring Mobile Pump	1	1
<b>Total</b>	<b>4</b>	<b>12</b>

- EMWD Groundwater Production

Potable Well Production	Production (AF) In February	Production (AF) Year To Date
Well 44 Sunnymead	46	114
Well 49 Fir	10	34
Well 55 Perris II	162	271
Well 56 Perry	143	269
Well 57 Follico	5	137
Well 59 Indian	144	293
<b>Total</b>	<b>510</b>	<b>1,118</b>

<b>Desalter Well Production</b>	<b>Production (AF) In February</b>	<b>Production (AF) Year To Date</b>
Well 75 Salt Creek	0	0
Well 76 McLaughlin	63	301
Well 77 Ethanac	0	0
Well 81 Antelope/Watson	36	173
Well 82 Mapes/Sherman	0	0
Well 83 Ellis/Sherman	15	129
Well 84 Ellis/Bradley	12	116
Well 85 Murrieta	0	0
Well 89 Ethanac II	0	0
<b>Total</b>	<b>126</b>	<b>719</b>

- Perris Basin Desalination Program

- The Menifee and Perris Desalters were not operating during February due to maintenance being performed on the Temescal Valley Regional Interceptor (TVRI), EMWD's brine line connecting the Menifee and Perris Desalters to the Santa Ana Regional Interceptor (SARI). The SARI, operated by the Santa Ana Watershed Project Authority, further conveys the brine to the Pacific Ocean for final treatment and disposal.

<b>Desalter Production</b>	<b>Production (AF) In February</b>	<b>Production (AF) Year To Date</b>
Menifee Desalter	0	194
Perris Desalter	0	155
<b>Total</b>	<b>0</b>	<b>349</b>

- Perris Water Filtration Plant

<b>Filtration Plant Production</b>	<b>Production (AF) In February</b>	<b>Production (AF) Year To Date</b>
Perris Water Filtration Plant	680	1,333

### 3. Hemet/San Jacinto Groundwater Management Activities

- Interim Water Supply Plan

- Due to the dry conditions and the level of demands in its service area, the Metropolitan Water District of Southern California (Metropolitan) curtailed Replenishment Service as of May 1, 2007. Therefore, no water was recharged at either the Conjunctive Use or Grant Avenue Ponds since then.

- In this collaborative effort between EMWD, LHMWD, and the Cities of Hemet and San Jacinto, 821-acre feet of SPW was recharged toward the 2007 goal of 6,000-acre feet.

#### 4. Other Water-Related News

- Recycled Water Activities

- During February, recycled water demand was reduced due to heavy rainfall and storage facilities reached capacity. As a result, it was necessary to discharge 3,178-acre feet of recycled water in February.

<b>Recycled Water Discharge</b>	<b>Discharge (AF) In January</b>	<b>Discharge (AF) Year To Date</b>
Temescal Creek at Wasson Canyon	3,178	6,732

# *West San Jacinto Groundwater Management Plan Monthly Report to the Advisory Committee*

~ March 2008 ~

## 1. West San Jacinto Groundwater Management Plan Area Activities

- Field Activities

- During March, the Spring 2008 water level measuring effort continued.

<b>Spring Water Level Measuring</b>	<b>Spring Static Measurements</b>
Wells Measured in February	48
Wells Measured in March	100
<b>Total</b>	<b>148</b>

- During March, the annual water quality sampling effort was interrupted due to staff activities in other areas.

<b>Water Quality Sampling</b>	<b>Wells Sampled In March</b>	<b>Wells Sampled Year To Date</b>
Wells Requiring Mobile Pump	0	11
Wells Not Requiring Mobile Pump	0	1
<b>Total</b>	<b>0</b>	<b>12</b>

- EMWD Groundwater Production

<b>Potable Well Production</b>	<b>Production (AF) In March</b>	<b>Production (AF) Year To Date</b>
Well 44 Sunnymead	6	120
Well 49 Fir	1	35
Well 55 Perris II	71	342
Well 56 Perry	123	392
Well 57 Follico	0	137
Well 59 Indian	124	417
<b>Total</b>	<b>325</b>	<b>1,443</b>

- During March, the desalter wells were not operating due to the Menifee and Perris Desalters being off-line for maintenance of the Temescal Valley Regional Interceptor (TVRI).

<b>Desalter Well Production</b>	<b>Production (AF) In March</b>	<b>Production (AF) Year To Date</b>

Perris Desalter	0	155
<b>Total</b>	<b>0</b>	<b>349</b>

- Perris Water Filtration Plant

<b>Filtration Plant Production</b>	<b>Production (AF) In March</b>	<b>Production (AF) Year To Date</b>
Perris Water Filtration Plant	594	1,927

## 2. Hemet/San Jacinto Groundwater Management Activities

- Interim Water Supply Plan

- Due to the dry conditions and the level of demands in its service area, the Metropolitan Water District of Southern California (Metropolitan) curtailed Replenishment Service as of May 1, 2007. Therefore, no water was recharged at either the Conjunctive Use or Grant Avenue Ponds since then.
- In this collaborative effort between EMWD, LHMWD, and the Cities of Hemet and San Jacinto, 821-acre feet of SPW has been recharged toward the 2007 goal of 6,000-acre feet.

### 3. Other Water-Related News

- Recycled Water Activities

- During March, recycled water storage facilities were at capacity, and as a result, it was necessary to discharge 1,773-acre feet of recycled water.

<b>Recycled Water Discharge</b>	<b>Discharge (AF) In March</b>	<b>Discharge (AF) Year To Date</b>
Temescal Creek at Wasson Canyon	1,773	8,505

# *West San Jacinto Groundwater Management Plan Monthly Report to the Advisory Committee*

~ April 2008 ~

## 1. West San Jacinto Groundwater Management Plan Area Activities

- Field Activities

- During April, the Spring 2008 water level measuring effort was completed.

Spring Water Level Measuring	Spring Static Measurements
Wells Measured in February	48
Wells Measured in March	100
Wells Measured in April	1
<b>Total</b>	<b>149</b>

- During April, the annual water quality sampling effort continued.

Water Quality Sampling	Wells Sampled In April	Wells Sampled Year To Date
Wells Requiring Mobile Pump	11	22
Wells Not Requiring Mobile Pump	10	11
<b>Total</b>	<b>21</b>	<b>33</b>

- EMWD Groundwater Production

Potable Well Production	Production (AF) In April	Production (AF) Year To Date
Well 44 Sunnymead	29	149
Well 49 Fir	1	36
Well 55 Perris II	96	438
Well 56 Perry	135	527
Well 57 Follico	61	198
Well 59 Indian	132	549
<b>Total</b>	<b>454</b>	<b>1,897</b>

- During April, the desalter wells were not operating due to the Menifee and Perris Desalters being off-line for maintenance of the Temescal Valley Regional Interceptor (TVRI).

<b>Desalter Well Production</b>	<b>Production (AF) In April</b>	<b>Production (AF) Year To Date</b>

<b>Filtration Plant Production</b>	<b>Production (AF) In May</b>	<b>Production (AF) Year To Date</b>
Perris Water Filtration Plant	1,201	4,519

- Annual Well Owner's Reports

- Annual reports were provided to well owners participating in the Groundwater Monitoring Programs in May 2008. Well owners were provided with copies of 2007 water quality analyses, water level measurements, and annual groundwater extraction amounts for each well they own.

## 2. Hemet/San Jacinto Groundwater Management Activities

- Interim Water Supply Plan

- Due to the dry conditions and the level of demands in its service area, the Metropolitan Water District of Southern California (Metropolitan) curtailed Replenishment Service as of May 1, 2007. Therefore, no water was recharged at either the Conjunctive Use or Grant Avenue Ponds since then.
- In this collaborative effort between EMWD, LHMWD, and the Cities of Hemet and San Jacinto, 821-acre feet of SPW has been recharged toward the 2007 goal of 6,000-acre feet.

## 3. Other Water-Related News

- Recycled Water Activities

- There was no need to discharge any recycled water during May.

<b>Recycled Water Discharge</b>	<b>Discharge (AF) In May</b>	<b>Discharge (AF) Year To Date</b>
Temescal Creek at Wasson Canyon	0	8,992

- San Jacinto Watershed Groundwater Recordation Program

- In accordance with the statutes in the Water Code that were enacted by the State with the adoption of Assembly Bill 2733 in September 2004, the procedures for the filing of the notices of extraction changed. As a result, EMWD assumed responsibility for administration of the San Jacinto Watershed Groundwater Recordation Program within its service area in the San Jacinto Watershed. EMWD will send the notices of extraction for calendar year 2007, which will be due by June 30, 2008, to all well owners in May 2008. Participants are assisted with the filing of their Annual Notices of Recordation of Groundwater Extraction with EMWD, and subsequent reporting to the State Division of Water Rights, and forms are provided to owners of new wells or wells never recorded.

## 2. Hemet/San Jacinto Groundwater Management Activities

- Interim Water Supply Plan

- Due to the dry conditions and the level of demands in its service area, the Metropolitan Water District of Southern California (Metropolitan) curtailed Replenishment Service as of May 1, 2007. Therefore, no imported water has been recharged at either the Conjunctive Use or Grant Avenue Ponds since then.

## 3. Other Water-Related News

- North San Jacinto Water Supply Pipeline

- The North San Jacinto Water Supply Pipeline is operational and serving untreated imported water to the dairies along the Ramona Expressway in an effort to reduce their groundwater production.

- Recycled Water Activities

- There was no need to discharge any recycled water during September.
